

Park County Board of County Commissioners
October 25, 2010
Site Tour, M Bar W

Proceedings of a Site Tour for the M Bar W, LLC Special Use Permit site by the Board of County Commissioners of Park County, Wyoming, held October 25, 2010 at 1:30 p.m. at the site of the M Bar W proposed gravel pit.

Present were Commission Chair Jill Shockley Siggins, Commissioners Dave Burke, Bucky Hall, Tim French, and Bill Brewer; County Planning Director Linda Gillett, applicant Brett Reed, two representatives of WyDOT, and two representatives from the construction company.

The group discussed the status of the road accessing the proposed and current site. The current slope may drain north, and there were questions about changing this after the current project is complete. Mr. Reed said it could be changed, and may be incorporated into the tilled field.

The group toured the area for the proposed crushing plant and gravel pit adjacent to the existing ponds. Mr. Reed said no further gravel would be removed from this site after the current project since he wishes to preserve the remaining crop land. The group also viewed the seep area (wetland) below the proposed site. The source of water was discussed, being from irrigation encountering a relatively impervious stone layer and running to the stepped soil and rock outcrops toward the river. Mr. Reed requested no wind speed limitations to control dust.

WyDOT and construction company representatives discussed hours and days of operation. There may be times due to weather or other unforeseen circumstances that crushing and hauling may be required on Saturdays. There will be no work on Sundays or holidays, so they would prefer no day limitations.

Jill Shockley Siggins, Chairperson

Dave Burke, Vice Chair

Tim A. French, Commissioner

Bucky Hall, Commissioner

Bill Brewer, Commissioner
