

November 2012

Volume 2, No. 7

SUNFLOWER/BARLEY MOISTURE STORAGE CHARTS

Sunflower moisture storage charts by Dr. Kenneth Hellevang, North Dakota State University Ag Engineer, are available at www.ag.ndsu.edu/extension-aben/post-harvest.

Natural Air/Low Temperature Crop Drying: Extension Bulletin 35 (revised) by Kenneth J. Hellevang, North Dakota State University Extension ag engineer. Equilibrium charts for wheat, barley, sunflowers, and corn are included. The publication is at the bottom of the section entitled Publications. Hellevang has posted three videos describing air flow and fan selection for grain bins at <http://www.ag.ndsu.edu/graindrying/publications-grain-drying-and-storage>.

2012 DRY BEAN PERFORMANCE

In the first week of December you will be able to access the 2012 Dry Bean Performance Evaluation trial conducted at the Powell Research Station at <http://www.uwyo.edu/ces/bighorncrops/index.html>.

CDL Study Groups Coming in November

UW Extension is offering CDL Study Groups at four locations in six sessions beginning in November and ending in February. Each session is five days, 9 a.m. to 3 p.m. Classes consist of a review of the Wyoming Department of Transportation Driver's License Manual for Commercial and Heavy Vehicles, lunch, and practice vehicle inspections. Driving practice is on your own. A brochure is posted at:

<http://www.uwyo.edu/ces/bighorncrops/>

UW wants your input!

The University of Wyoming is in the process of developing a plan for the next five years. Thoughtful introspective planning based on the needs and input of those we serve is critical to the long-term success of the University of Wyoming Extension and the Wyoming Agricultural Experiment Stations.

As part of that process, UW Extension is seeking input from clientele. If you would like to provide information that will help UW Extension develop plans for the next five years, you can participate in an online survey by clicking this link.

<https://survey.uwyo.edu/TakeSurvey.aspx?SurveyID=l8KM7pm63>

CALENDAR

Feb 4-8 CDL Study Group, Riverton

Feb 5-6 WESTI Ag Days, Worland

Feb 7-8 Wyoming Crop Improvement Assoc. meeting, Powell

Drought can increase forage toxicity

Rachel Endecott, Montana State University, presented “Feeding Risks from Drought impacted feeds and forages,” a webinar, last week on Ag In Uncertain Times. Dr. Endecott discussed risks associated with nitrate toxicity and prussic acid poisoning to livestock. You can listen and view the presentation at

<http://www.farmmanagement.org/aginuncertaintimesenglish/ag-in-uncertain-times/webinars/>.
